REASONS FOR ALLOWANCE

1. The newly filed Declaration now includes the language that all the errors being corrected arose without deceptive intent, specifically states that the applicants are the inventors of the claimed subject matter and identifies a proper error for correction by reissue. Therefore the Declaration is accepted and overcomes the rejection under 35 U.S.C. 251.

2. The status of the claims is as follows:

Claims 1, 4-7, 11-14, 18 and 21 were amended and are allowed.

Claims 2, 3, 8-10, 15-17, 19 and 20 were not amended.

Claims 22-48 were newly added and are allowed.

3. The following is an examiner's statement of reasons for allowance: The claimed invention is allowable based upon the reasons previously given and because the prior art of Sellner does not teach or suggest the added step of synthesizing the cDNA at 45 to 75 degrees Celsius. While Sellner does teach performing RT at a lower temperature and Shimomaye does teach that RT enzymes can function at higher temperatures, there is no specific motivation to combine these references to render the invention prima facie obvious. This is particularly the case because Shimomaye indicates that a preannealing step is required and therefore teaches away from the use of elevated temperatures without such a step. Therefore, the claimed invention is novel and unobvious over the cited prior art.

4. The examiner notes that the Sequence Listing filed on May 3, 2004 does NOT need underlining or bracketing because it is not an amendment, but rather represents the originally filed sequence listing which is identical to that found in the patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00.
